

Sustainable Food Industry Development:  
Changing the Taste of the World?  
可持續餐飲：改變世界味道？

In recent years, there has been a global focus on carbon emissions, environmental protection, and social responsibility, making ESG an essential aspect of development for many companies. As a result, it is important to upskill team members to acquire the necessary knowledge and skills in sustainability.

This year, we are delighted to work with Future Green, a food sustainability consultancy firm that creates solutions for businesses. Together, our aim is to collectively offer the industry an in-depth understanding through seminars and panel discussions on the emerging trend of "Sustainable Food Industry Development".

近年世界各地對碳排放、環保及社會責任議題愈表關注，令ESG迅速成為不少公司著力發展的其中一環，而各行各業亦需具備其知識及技能。今年我們很高興與食品可持續發展顧問Future Green合辦座談會，讓業界深入了解並一同探討「可持續餐飲業發展」這個新趨勢
